

How To Measure and Order Replacement Foam Cushions

1. Take the cover off of the old foam cushion. You will measure the cover; not the foam.
2. Print the matching shape cushion diagram, below, and fill in all corresponding measurements.
3. **IMPORTANT: Add 1" to all measurements to fill cushion cover fully and avoid cover wrinkling.**
4. Enter the measurements onto the corresponding cushion's ordering page on guildcraftfoam.com
5. After entering measurements on the ordering page, then select the desired Thickness (**remember to Add 1 extra inch to avoid cover wrinkling**) and select Foam Type.
6. Click "Add to Cart"
